

THEMINI APSARA

Computer Undergraduate | Web Developer | Aspiring Software Developer

PROFILE

Final-year BSc Computing student at the University of Bolton with practical experience in software development, web development, databases, and programming. Skilled in Python, JavaScript, HTML, CSS, PHP, and SQL, with hands-on experience developing web applications and academic software projects. Passionate about software engineering, problem solving, technology, and continuous learning. Seeking a Software Engineering Internship to apply technical knowledge, develop industry experience, and contribute to real-world software solutions.

EDUCATION

University of Bolton — United Arab Emirates

BSc (Hons) in Computing | Expected Graduation: 2027

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management, Web Development, Software Engineering, Systems Analysis & Design

Higher National Diploma (HND) in Cyber Security Sri Lanka

TECHNICAL SKILLS

- Languages: Java, Python, JavaScript, PHP, SQL, HTML5, CSS3
- Developer Tools & Frameworks: Git, GitHub, VS Code, XAMPP, MySQL Workbench
- Databases & Reporting: MySQL, phpMyAdmin, JasperReports
- Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Relational Database Design, User Authentication

PROBLEM SOLVING & ALGORITHMIC PRACTICE

Competitive Programming: Active problem solver on LeetCode/HackerRank, practicing Data Structures & Algorithms (Arrays, Hash Tables, Strings, Sorting).

Code Efficiency: Applied $O(N)$ and $O(\log N)$ time complexity optimizations during array and search operations in project implementations.

EXPERIENCE

Applications Developer / Web Developer — Innovation Revamped

Jan 2023 – Jan 2024

- Developed & Maintained web solutions to support business processes and enhance user communication flow
- Optimized online payment integration logic, directly addressing checkout issues and improving user conversion
- Maintained MySQL database records, managing monthly data sheets with 100% data logging accuracy

TECHNICAL PROJECTS

Car Shop Management System | Java, Java Swing, MySQL, JasperReports

Architected a desktop inventory application using Java Swing and OOP principles, streamlining stock tracking

Designed & Optimized relational MySQL queries, reducing inventory data retrieval latency for over 50+ vehicle entries

Integrated JasperReports to automate bill generation, reducing manual invoice processing time by ~60%

Solo Travel Web Application | PHP, MySQL, JavaScript, HTML5, CSS3

Engineered a full-stack responsive web application across 8+ custom dynamic pages with user authentication

Implemented session-based user authentication and dynamic media upload pipelines handling profile/cover images

Managed version control using Git, executing 10+ structured commits and modular code organization

LANGUAGES

English , Sinhala
